PROFESSIONAL EXPERIENCE

Sodexo - *Bethesda, Maryland (Remote in Nauvoo, IL)*

Senior Instructional Designer | Sept. 2013 - Sept 2026

Instructional Designer | Jan. 2011 - Sept. 2013

- Designed and developed eLearning courses and digital learning tools using instructional design principles and authoring tools: Articulate Storyline, Rise, Lectora, Captivate, Elucidat, iSpring, Synthesia, and Vyond.
- Articulate Storyline: Extended Storyline functionality with variables, triggers, JavaScript, and AI-assisted development to create custom learner experiences.
- Evaluated and applied emerging technologies, including generative AI and AI-assisted development, to accelerate content creation, visual design, web design/coding, troubleshooting, and development workflows.
- Co-developed an interactive learning game with Storyline and a companion leaderboard website using HTML5, CSS, JavaScript, jQuery, PHP, and MySQL; showcased the game at Learning Solutions 2016 DemoFest and presented it at DevLearn 2016; Articulate featured the game in its Rapid eLearning Blog.
- Built courses with accessibility features such as alt text, captions, and keyboard navigation.
- Designed and developed more than 15 learning portals with Articulate Storyline to provide learners with a centralized and streamlined experience for accessing program-related training content while also simplifying development and maintenance.
- Brought development of learning portals in-house, reducing reliance on external vendors and saving the organization thousands of dollars in development costs.
- Created custom UX/UI concepts and visual designs for learning portals, websites, eLearning, and digital tools, then translated those designs into functional digital learning experiences.
- Implemented and administered xAPI and a Learning Record Store (Veracity), including custom reporting dashboards used to analyze learner activity within learning portals.
- Built portal progress-tracking functionality that stored learner completion data in an LRS and used JavaScript to retrieve the data in Storyline across browser sessions, allowing learner progress to persist and display through interactive checkboxes.
- Administered SAP SuccessFactors LMS, including course uploads and completion reporting, to support the delivery and management of organizational learning.
- Partnered with business owners and subject matter experts to collaborate throughout the design and development process.
- Managed eLearning and web projects, including timelines, documentation, project updates, and communication with project teams.
